

**WMAC24 PARTS' NAME**

| <b>NO.</b> | <b>Name</b>                | <b>Quantity</b> | <b>No.</b> | <b>Name</b>                        | <b>Quantity</b> |
|------------|----------------------------|-----------------|------------|------------------------------------|-----------------|
| 1          | Evaporator fan motor       | 1               | 23         | Compressor capacitance fixed plate | 1               |
| 2          | Evaporator fan volute      | 1               | 24         | PCB                                | 1               |
| 3          | Left board                 | 1               | 25         | 4inch brake wheels                 | 2               |
| 4          | Handle                     | 2               | 26         | Machine frame                      | 1               |
| 5          | Power cord and plug        | 1               | 27         | 4inch universal wheels             | 2               |
| 6          | Power cord buckle          | 1               | 28         | Compressor                         | 1               |
| 7          | Wind deflector             | 1               | 29         | Handle                             | 2               |
| 8          | Ambinet temperature sensor | 1               | 30         | Condenser                          | 1               |
| 9          | Front air filter           | 1               | 31         | Right board                        | 1               |
| 10         | Air inlet board            | 1               | 32         | Display label                      | 1               |
| 11         | Handle                     | 1               | 33         | Upper board                        | 1               |
| 12         | Under board                | 1               | 34         | Display board                      | 1               |
| 13         | Water tank                 | 1               | 35         | Evaporator                         | 1               |
| 14         | Water tank baffle          | 1               | 36         | Evaporator plate                   | 1               |
| 15         | Water tank bottom plate    | 1               | 37         | Cold air hose                      | 3               |
| 16         | Water level sensor         | 1               | 38         | Condenser fan bracket              | 1               |
| 17         | Water level sensor bracket | 1               | 39         | Condenser fan                      | 1               |
| 18         | Water tray                 | 1               | 40         | Top cover                          | 1               |
| 19         | Terminal block             | 1               | 41         | Condenser plate                    | 1               |
| 20         | Condenser fan capacitance  | 1               | 42         | Back board                         | 1               |
| 21         | Evaporator fan capacitance | 1               | 43         | Back air filter                    | 1               |
| 22         | Compressor capacitance     | 1               |            |                                    |                 |
