

A018A Schematic diagram of moving air conditioning parts

|    |                          |    |                                       |
|----|--------------------------|----|---------------------------------------|
|    |                          |    |                                       |
|    |                          |    |                                       |
|    |                          | 89 | Evaporator Fan                        |
|    |                          | 88 | Temperature sensing bag fixing card 2 |
|    |                          | 87 | Gear wear pad                         |
|    |                          | 86 | Water motor sheet metal cover         |
|    |                          | 85 | Temperature sensing bag fixing card   |
|    |                          |    |                                       |
|    |                          | 83 | Compressor grounding wire             |
|    |                          | 82 | Compressor capacitance connection     |
|    |                          | 81 | compressor connecting wire            |
|    |                          | 80 | 4-way Valve Assembly                  |
|    |                          |    |                                       |
| 38 | BMC electrical box cover |    |                                       |
| 37 | Power PCB                | 78 | Temp Sensor Support                   |
| 36 | Isolate Support          | 74 | Temp. Sensor                          |
| 35 | BMC electrical box       |    |                                       |
| 34 | Temp. Sensor             |    |                                       |
| 33 | Wrapping Post            | 71 | Earth plate                           |
| 32 | Housing Adaptor          | 70 | Water Pipe                            |
| 31 | Exhaust Hose             | 69 | Remote control                        |
|    |                          | 68 | Window Kit                            |
| 29 | Window Connector         | 67 | Dowel                                 |
| 28 | Up Grille                | 66 | Air Outlet Grille                     |
| 27 | Air Filter               |    |                                       |
| 26 | Rear Panel               | 64 | Compressor Capacitor                  |
| 25 | Low Grille               | 63 | Condenser Motor                       |
| 24 | Step Motor Bracket       | 62 | Low Right Volute                      |
| 23 | Step Motor               | 61 | Condenser Fan                         |
| 22 | Main Gear                | 60 | Low left Volute                       |
|    |                          | 59 | Capillary                             |
| 20 | Display PCB              | 58 | Support                               |
| 19 | Facial mask              | 57 | Condenser                             |
| 18 | Outer Louver             |    |                                       |
|    |                          |    |                                       |
| 16 | Axle Sleeve              | 54 | Magnetic Switch                       |
| 15 | Top Cover                | 53 | Base                                  |
| 14 | Gear Support             | 52 | Castor                                |
| 13 | Auxiliary Gear           | 51 | Splash Wheel                          |
| 12 | Gear screw               |    |                                       |
| 11 | Anti-collision strip     | 49 | Splash Motor                          |
| 10 | Up Air Outlet            |    |                                       |
| 9  | Evaporator               | 47 | Compressor                            |
| 8  | Up Rear Volute           |    |                                       |
| 7  | Evaporator Fan           | 45 | Isolate Plate                         |
|    |                          | 44 | Water Stopper                         |
| 5  | Up Front Volute          | 43 | Discharge Nut                         |
| 4  | Evaporator Motor         | 42 | Powr Cord                             |
| 3  | Hidden Display Cover     | 41 | Wire Clamp                            |
| 2  | Hidden Display PCB       | 40 | Up Motor Capacitor                    |
| 1  | Front Panel              | 39 | Down Motor Capacitor                  |
| NO | Material name            | NO | Material name                         |
